Origin: South America.

Care Level & Placement: Medium difficult care, Indoor plant

Light

Thrives in bright, indirect light. Avoid direct sunlight, as it can scorch the leaves.

Water

Keep the soil consistently moist but not waterlogged. Allow the top inch of soil to dry slightly before watering again.

Soil

Well-draining, aerated potting mix that retains some moisture.

Fun fact

The vibrant "flower" of Anthurium is not actually a flower but a modified leaf called a spathe. The true flowers are tiny and clustered on a spike within the spathe.
